Dear Sir or Madam:

We, GALAXYWIND Network System Co., Ltd. hereby declare that product: Macbee Module, model: iWulink M104-2.0, FCC ID: 2AES6IWULINKM104, which has been tested by BACL.

The main model (iWulink M104-2.0) and the multiple models (iWulink M104-3.0, iWulink M104-2.1) are electrically identical with the PCB design, components and electromagnetic compatibility characteristics. The tiny differences between them are as following:

1. The added model iWulink M104-3.0 uses an external antenna, which is the only difference with the main model.
2. The added model iWulink M104-2.1 uses 11pins needle, but a 9 pins needle was used in main model. This is the only difference between them.

Please contact me if there is need for any additional clarification or information.

Best Regards,

Signature:

A handwritten signature in black ink that reads "Yu Zeng". The signature is written in a cursive, slightly stylized font.
